PEACE TALK IS

French Will Insist on Germans Acknowledging They Have Been Defeated.

Paris, May 15 .- A strong wave of conciliation is sweeping over the belligerents. At no moment since August 1914, has there been so much peace talk and never before has the peace talk been so devold of flamboyant language or so much impregnated by a spirit of moderation. No other con-clusion than the foregoing can be drawn from the important diplomatic news from several quarters of Europe published in today's newspapers.

"We believe in the value of negotiations and have faith in the results of international conferences," said Sir Edward Grey in an interview on Sat-

"We need guarantees of equilibrium and stability," was the new peace for-mula announced by President Poincare yesterday.

Vatican circles state that the pope and King Alfonso are working closely together for peace, which is described as "more or less near."

The persistent reports from Holland and Switzerland say that Prince von Buelow's return to office is imminent and that his rule will be that of German's peace maker. Prince von Bue-low was formerly chancellor. Finally, great stress is laid on the

report that Embassador Gerard has forwarded to President Wilson an autograph letter from the kaiser, suggesting the president's intervention for peace. After a careful canvass in well-in-

formed quarters in Paris and at the embassy of an important European neutral country today, a most optimistic view is taken as to early developments in a pacific direction.

Polncare's Speech. The comment of the semi-official Temps on yesterday's speech of President Poincare is very significant. It

"When President Poincare, with the authority vested in the office of chief of state, lays down as the first condition of peace serious guarantees of equilibrium and stability, he has the entire nation behind him. The people gist who sells it is authorized to rear not inspired by sentiment or hatred-they desire neither vengeance nor conquest, but remain faithful to the principles of liberty and justice. This is what has given them such sublime impulsion in their defense of their threatened country. The allies have an imperious duty toward themselves and humanity to continue the fight until the enemy owns himself beaten and ready to accept their condi-

The Journal des Debats, commenting on President Poincare's statement regarding "equilibrium and stability,

"The ony real guarantees in this connection would consist of the admission by Germany of her powerless ness to defeat the allies. This admission will inevitably come, and we can not usefully discuss peace until it has

CHILD DROWNED IN A CANAL AND BODY

A little 3-year-old Japanese boy near Five Points, last evening, at about 7 o'clock, fell into a canal and was drowned. The swift stream car-ried the child beyond the reach of the frantic parents who vainly endeavored to rescue him.

Sheriff T. A. DeVine and his depuies dragged the stream during the night but did not succeed in recovering the little body. The search will be renewed.

Good Advice For Thin, Undeveloped Men and Women Who want to Put on Flesh

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who, having tried advertised flesh-makers, food-fads, physical culture stunts and rub-on creams, resign them selves to life-long skinniness and think nothing will them fat. Yet their case is not hope-less. A recently discovered combination of assimilative agents has made fat grow after years of thinness, and it is also unequaled, judging from re ports, for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable preparation is called Sargol. Six strength-giving, fat-produc ing assimilative elements of acknowledged merit have been combined in this preparation, which is indorsed and used by prominent people every-
